## Introductory

T HE PUBLISHERS take pleasure in presenting herewith the Minth Annual Edition of Henderson's Saskatoon Directory. A work of this kind to be valuable, must, in all respects, be thoroughly reliable and up-to-date; fully conscious of these essentials, the publishers have taken every precaution to secure the accuracy of the information.

This Edition embraces the area of GREATER SASKATOON, comprising the territory of the City proper, Nutana, Sutherland, and all Subdivisions and environs.

Attention is directed to the Miscellaneous Section in the front part of the volume, containing up-to-date statistics and information, much of which is not to be found elsewhere in print.

The Advertising Department, together with the Classified Directory, contains an alphabetical list of all articles made and sold in Saskatoon, and virtually makes it a city catalogue and forms a most complete buyer's guide.

The value of the street section is not appreciated, perhaps, by some who desire to find a certain house on a street unfamiliar to them to the extent it should be. By application of the following example the location of any street number can be found expeditiously: Suppose 214 Avenue S South is wanted: refer to street section Avenue S South—glance down to 214, then to the nearest intersection to 214, It will be found that this number is on the east side of the street, five houses south of 21st Street, between 21st and 22nd Streets.

The removals and changes in the information this year have greatly exceeded any the publishers have previously had to contend with in the compilation of the Saskatoon Directory, and have, of necessity, entailed an enormous amount of extra work.

Today the whole world is engulfed in a mighty vortex of tribulation and strife, and Canada is nobly and lovally doing her part to uphold the cause of justice and the protection of the weak. Thousands of her citizens have afready bravely shed their blood at the front, whilst tens of thousands more are impatiently awaiting their turn in the trenches. The departure of so many with the Canadian contingents, together with the immense numbers of British reserves and reserves of all the Allies, who have left to rejoin the Colors, have been a deep drain upon Saskatoon, and it is therefore only natural that the Directory would reflect their loss and be smaller in consequence.

The Publishers desire to thank their patrons and the general public for the courtesy extended, at all times, to their representatives, and to say that they fully appreciate the confidence which the business and professional men of Saskatoon have always: shown in their publications.

# City of Saskatoon

No city proposes a more valuable asset than picturesque charm. This, because the beauty of a place goes far to influence its selection by those seeking a new home and sphere of effort. However, as a rule, the newcomer's preconceptions of this West have not prepared him for much that is picturesquely attractive. Consequently, Saskatoon's exquisite natural charm—being unexpected—appeals with added pleasure—a pleasure instantly compensating for the loss of other beauties loved and left behind-for, after all, there are new ones here to replace the old: a magnificent river flowing between wooded banks, winds through the very heart of the city; a city of splendidly broad and of beautiful homes standing in fair gardens. Beyond the city, the prairie, vast and inspiring, stretching away to the vague and dreamlike far-beyond, where the sky seems to rest on the very rim of a beautiful world, with here and there the golden glow of ripening grain; and always a splash of wildflower color on an endless carpet of wondrous greens. Saskatoon is as a beautiful gem in a beautiful setting.

One hundred and thirteen hopeful souls and a few rude shacks huddled together on the bank of the South Saskatchewan Riversuch was Saskatoon in December, 1903—such was the crude and humble embryo from which the splendid city of today has arisen in those few short intervening years.

However, there must be reasons for all things; causes for all effects. The phenomenal growth of any city owes nothing to chance. Let us therefore examine the causes responsible in the case of Saskatoon.

Saskatoon is too young for old inhabitants and consequently escaped the retarding influence of cherished tradition and obsolete precedent.

Further, the pioneers who raised Saskatoon from a shack hamlet were of a singularly fine type—young men, cultured, far-sighted; equipped with infinite resource and inspired with high ideals and the courage to strive for and achieve them—men who above all else grasped the full potency of true citizenship and the irresistable power of unity.

J. 08

And now briefly examine the more prominent of the material causes contributing to Saskatoon's wondrous unfolding.

Glance at any map: note Saskatoon's strategic geographical location—far removed from any other large city—right in the middle of the West, and at the same time in the centre of the Province of Saskatchewan

Saskatoon is the only city in Central Saskatchewan. There being no other large point near, the vast surrounding territory is wholly hers because she has the competitive railway facilities and distributing freight rates to control it absolutely as follows:

On carloads shipped in Saskatoon's wholesale distributing territory extends to about 48,000 square miles, stretching far into Alberta gagleed, to within 82 miles east of Edmonton—and even now embracing over two hundred points on no fewer than 2,225 miles of operating railways—a distance only 27 miles shorter than that from Montreal yto Calgary, per C. P. R.

On goods manufactured locally, such as flour, Saskatoon controls a distributing area of about 70,000 square miles, within which there are at present over 290 bright young towns and villages.

Within the past seven years, Saskatoon has expended over \$1,500,000 on schools. Neither upon construction nor equipment has money been stinted. Of the four schools last completed, three cost \$155,000 each, and the fourth \$118,000; while the Mayfair school will involve an expenditure of about \$140,000.

The city of Saskatoon favors municipal ownership as far as is at present deemed practicable and judicious, and now controls its water, light, power, street car system, sewerage and hospital.

The splendid facilities now operating to Saskatoon are already more than sufficiently important to win her distinction as a great natural railway centre, and such facilities are at present almost entirely confined to the new main lines of the three big companies which pass east and west. These, as will be evident, merely constitute the colossal framework upon which an intricate inter-threading of branch lines radiating north, south and in practically every direction, is now being swiftly and deftly woven.

That a veritable network of lines will, in the near future, spread through this whole vast district is a fact which the construction programmes of the different transportation companies already places beyond uncertainty.

#### COLLEGIATE INSTITUTE

#### Victoria Avenue corner 11th Street, Nutana

The Collegiate building is one of the finest and most up-to-date school buildings in Western Canada. Situated on the high south bank of the Saskatchewan River, it commands an excellent view of the city, the river and the surrounding country,

The building covers a ground space of 80 feet by 150 feet. It comprises a basement and three storeys. The basement contains a large gymnasium, 70 feet by 33 feet, with 15 foot ceiling, boiler and fuel rooms, lavatories, and rooms for manual training work and the teaching of domestic science. On the first floor are seven class rooms, library, reading room, teachers' room, and principal's office. On the second floor are six class rooms, three science rooms, and two lavatories. The third floor contains a large assembly hall, with a seating capacity of 500 and a stage 18 by 24 feet; also two dressing rooms, and four rooms which may be used for store rooms or for special classes.

#### University of Saskatchewan

The University is situated on the east side of the south branch of the Saskatchewan river. Its site comprises 1,333 acres. About 300 acres, with frontage of over half a mile on the river, have been set apart for a campus. A portion of the quarter section south of the campus is devoted to plot work, the land being virgin prairie.

A general plan of the campus, making ample provision for future growth, is being prepared. In the preparation of this plan advantage is being taken of the experience of state universities with problems similar to those of this University. In the erection of buildings it was thought wise to begin with a number of small buildings adequate to present needs, but capable of being adapted to special purposes without serious waste and at small cost when the growth of the University requires greater specialization in buildings.

The College building is about 220 feet long and \$2 feet wide with a large hall capable of seating between 500 and 600 people. This building will be used for teaching purposes in Arts and Agriculture. It is located in a position convenient to the Agricultural, Engineering, Horticultural and Dairy buildings, the Stock Pavilion and Farm buildings so that in time it may be devoted exclusively to the College of Agriculture. Near it are placed the residences for students.

#### COLLEGE OF AGRICULTURE

The College of Agriculture is a part of the University and stands fine same relation to the University as does the College of Arts and Science. It has a number of buildings planned and equipped for carrying on its particular work and a staff of its own for the purpose of giving instruction especially in the technical subjects and elementary work in English. Mathematics and Sciences. Its laboratories and equipment are under certain limitations and restrictions, available to students in the other colleges of the University for the purpose of scientific research.

The aim of the College is to give the students under its care a good, practical training in the different technical subjects that bear upon the various phases of agriculture, such as animal husbandry, field husbandry, farm mechanics, farm engineering, dairying, horticulture, tree planting and others; to give them a good, liberal education in various other branches such as will enable them to adapt themselves readily, without great loss of time and energy, to new and varied conditions, and to fit them for their duttes as good citizens.

The University estate consists of the campus, about 293 acres, and the College Farm, 1.040 acres. The College Farm proper consists of 880 acres.

#### THE OBJECTS OF THE ASSOCIATION

The Association of the American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall quality as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees. Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake Directory.

## System of Street Names and Numbering

Streets run east and west, odd numbers on south side.

Avenues run north and south, odd numbers on west side,

The townsite has been laid out allowing 18 streets in Nutana, south of the Saskatchewan River, Eighth to Eighteenth Streets being within the Corporation limits, while First Street to Seventh Street lie south of the southern city limits. First street to Eighteenth Street are in Nutana, Nineteenth Street being the first street on the west side of the River. East of the C. N. R. tracks and west of the river streets are numbered from Nineteenth to Twenty-sixth, west of the C. N. R. tracks in Riverdale streets number north from Eleventh to Thirty-third, the northern city limits.

With the Avenues the C. N. R. tracks are the dividing line. Avenues First, Second, Third, Fourth and Fifth running north and south and paralleling the C. N. R. tracks to the east are arranged numerically from the C. N. R. to the Saskatchewan River. West of the C. N. R. Avenues are arranged alphabetically from Avenue A to Avenue P, the western city limits.

In Nutana the street information is taken east from the Saskatchewan River to eastern city limits. On the Avenues north from 8th Street the southern city limits. The system of house numbering adopted by various cities throughout the continent known as the Decimal or Philadelphia system, viz., an even hundred numbers are allotted to each block, the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on a street or avenue.

On the Avenues, which run north and south, a number is allotted for every 12 feet and on streets running east and west, a number is allotted for every 15 feet.

Note—The arrangement in Street and Avenue Directory is in the following order: Alphabetical Streets and Avenues; Avenues A to Z; Numerical Avenues and Streets.

The arrangement by directions is East, West, South and North.

Where the odd and even numbers on an Avenue or Street are separated, the east side (even numbers) on Avenues will appear first and the south side (odd numbers) will appear first on Streets,
